

Complete Web Solutions is a business venture offering website solutions and various multimedia to small/medium businesses at very affordable rates. The idea is simple. No **unnecessary maintenance contract**

needed! Firstly, we design and develop your website and secondly and very importantly, we show you how to administer your own website. Very easy to use content management systems are implemented and tailored to your specific requirements. If you want to upload images and movies, you can. If you want to type blogs or create newsletters, you can. If you want to see who's visiting your site, you can.

You, our client pay a **once off** fee for website design and development and that is that! No need for unnecessary contracts!

We offer a free consultation to new clients for demonstration purposes. We listen to your needs and give you a breakdown of the time involved. Turn around time for a start to finish website varies from 2 - 10 days depending on level of requirements.
